2. End of Life Products

The products on the last page of the pricelists are nearly at the end of their End Of Life Cycle. Once stock is depleted or once the EOL date is reached, an EOL product can no longer be purchased. Extended Warranty can still be purchased on a product during its End Of Life Cycle. After this, the extended warranty is **no longer available**.

3. Part Numbering

When ordering products please replace the suffix "-xxx" with the suffix for your region, as follows:

- 201 UK and Ireland
- 202 European region
- 203 Switzerland

This ensures that the correct power cords are included with the product.

4. Other

Please note that while the DSAVIQ cables are sold with both Digital and Commodity Products, **the discount for these cables will always be calculated as digital discount.**
